

DITIRO MINING
& ENGINEERING

COMPANY PROFILE

DITIRO MINING & ENGINEERING

COMPANY OVERVIEW

INTRODUCTION

Ditiro Trading & Construction t/a Ditiro Mining & Engineering is a Black female-owned mining services company. Our company specializes in providing comprehensive repair and maintenance solutions for the mining industry.

Our mission is to keep mining operations safe, reliable, and productive by delivering precision servicing, proactive maintenance programs, and rapid on-site support. With expertise across heavy equipment, plant machinery, electrical systems, and structural construction, we ensure maximum uptime and compliance with the highest safety standards.

Our major client includes Anglo American, wherein we provide the following services: plant maintenance, parts replacements, conveyor belt service, boiler making, tuning and fitting, etc.

Beyond technical excellence, we add value through consulting, operator training, and sustainability initiatives, positioning us as a trusted partner in keeping mining operations efficient, safe, and future-ready.

OUR COMPANY CORE SERVICES

- **Plant & Processing Equipment Support**

Repair and maintenance of crushers, conveyors, mills, and screening plants to keep production running smoothly.

- **Mechanical & Structural Repairs**

Welding, fabrication, and structural reinforcement of equipment and mine infrastructure.

- **Heavy Equipment Maintenance & Repair**

Comprehensive servicing of mining machinery such as haul trucks, excavators, loaders, and drilling rigs to ensure maximum uptime.

- **Electrical & Instrumentation Services**

Installation, troubleshooting, and repair of electrical systems, control panels, and instrumentation for safe and efficient operations.

OUR COMPANY SPECIALISED SERVICES

- **Preventive & Predictive Maintenance Programs**

Scheduled inspections, condition monitoring, and predictive diagnostics to minimize downtime and extend equipment life.

- **On-Site Field Services**

Mobile repair teams available 24/7 for emergency breakdowns and on-site interventions.

- **Spare Parts Supply & Component**

Rebuilds Sourcing, stocking, and rebuilding of critical components to reduce lead times and costs.

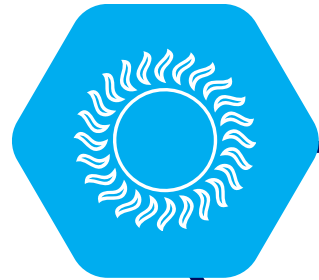

- **Safety & Compliance Upgrades**

Ensuring machinery and systems meet mining safety standards and regulatory requirements.

- **Shutdown & Turnaround Support**

Planning and execution of major maintenance shutdowns with minimal disruption to operations.

VALUES

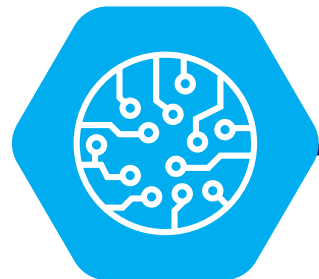

HEALTH, SAFETY & ENVIRONMENT:

We foster a healthy and safe work environment and we are respectful and protective of our natural surroundings.

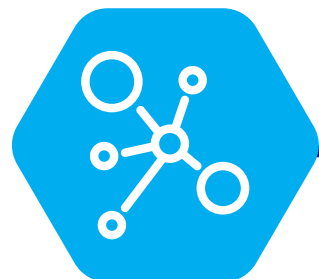

PEOPLE, QUALITY & INNOVATION

Whenever possible, we go beyond what's merely expected of us to achieve something better.

COMMUNITY:

We strive to make communities better. The power of our community relationships manifest in mutually beneficial gains.

SHAREHOLDERS & INVESTORS

Those who entrust their investment to us are entitled to our best effort and utmost discipline as we manage the company.

OUR COMPANY COMPANY VISION

Our vision is to be the leading repair and maintenance partner for the mining industry, recognized for innovation, reliability, and sustainability. We aspire to set new benchmarks in equipment performance and operational safety, while driving long-term value for our clients and communities. By embracing advanced technologies and eco-conscious practices, we aim to shape a future where mining operations are not only productive but also responsible and resilient.

Ms. Nkadimang started her career in corporate SA, working for financial services companies such as HSBC, Nedbank, and Santam in the HR discipline. Jane later ventured into the telecommunications sector and launched an MVNO, Bayede Mobile, in partnership with King Goodwill Zwelithini. She also became the Executive Director of an engineering business specialising in developing Cellphone Towers.

Within the mining sector, she is currently a majority shareholder and Executive Director in the mining services company Ditiro Mining and Engineering, with Anglo American Kumba and Kolomela being major customers. Through the company she also own 3 prospecting rights and mining permits for Iron Ore and Manganese. She also owns minority shares in listed Lithium mine in NC. As a Social Entrepreneur, Ms. Nkadimang, through her NPC, heads the NC Small-scale Miners programme in partnership with the NC Premier's Office, NC Department of Women, Youth & Persons with Disabilities, and Department of Mineral Resources and Energy.

She recently completed a Masters in Business Administration, and previously completed postgraduate business studies including PG Dip Corporate Governance and PG Dip Business Project Management through Monash University and University of Cape Town respectively.

JANE NKADIMANG, MBA

FOUNDER, CEO

Mr Nkadimang is an Electrical Engineer by profession. He was born and raised in Kuruman and operates his business full-time in Northern Cape. Prior to venturing into business, Thapelo acquired technical training in Heavy Current at Anglo American Kumba Mine focusing on House Wiring (Lights, Main Switch Connections, Wiring), Power Supplies (Single Phase and Three Phase), Motors (Generator, AC Motor, DC motor, Pole Changing motor, Star Connections, Delta Connections, Three Phase Reversing starter, Three Phase pole changing, Star Delta Connections and Induction Motor).

He studied ND Electrical Engineering specialising in Heavy Current at Central University of Technology of Free State. He holds an N3 Certificate in Electrical Engineering, Heavy Current from Motheo FET College which he obtained in 2006 as well as Certificate in Solar Geyser Installation and Heat Pumps from PVC College obtained in 2013 and Solar Panels installations.

Other short courses which he completed include Understanding and Managing Scheduling and Work Breakdown Structures, Contractor Accountability File Workshop, General Site Establishment Workshop and Introduction to JBCC and QCP.
